

Scholarship Essay

As I am approaching to conclude my current academic program, my wish is to proceed for further studies with a keen interest in healthcare administration. But that would depend if I happen to get a scholarship to pursue my dreams. Academically, I have been exceptional having maintained a perfect and credited academic record with my current program attaining a majority of distinction A's all over my classes. This comes from the fact that, I put my studies at the upfront and above all others aspects so I believe if I get the scholarship, it will help me continue my streak academically, this time at the masters level in HealthCare Administration.

Currently, am working in healthcare in a position I would deem unsatisfactory. I have the potential to do more, and my work ethics and record has proven so. I have every intention to move up in the corporate ladder and serve in a more influential position for the better delivery of healthcare services. I have this anticipation which can only become a reality if I attain a scholarship to further my studies. I believe I am ready to head for new challenges in my line of work and attain more roles as a healthcare professional in my line of work. But the only restriction that separates me from my life goal is the lack of further educational basis in my carrier which I can now have with the help of a scholarship.

I believe in being a true and magnificent representative of an academic elite in my workplace, society and more so as the head of my family. I am a father to my son whom I would like to very much admire my traits, so to set up my academic progressiveness, I would like to pursue further studies to the highest point possible. And as luck have it, here is the chance to ascertain my dreams through the help of a scholarship. I preserve the same image to the society and my fellow workmates who I would like to see me as a mentor, as a person they can look for and have the urge to further their education for a better and elite livelihood through furthering their education as well.
